ROMAN ALI

MERN Stack Developer | Software Engineering Student

romanalidev@gmail.com | +92 333-2875280 | Ittehad Town, Baldia Town, Karachi, Pakistan

SUMMARY

Software Engineering student with hands-on experience in full-stack web development using MongoDB, Express.js, React.js, and Node.js (MERN Stack). Skilled in building responsive web applications, RESTful APIs, and database-driven solutions. Developed a complete e-commerce platform featuring authentication, product management, shopping cart, checkout, order management, and admin dashboard functionality. Passionate about software development, problem-solving, and continuously learning modern web technologies.

TECHNICAL SKILLS

Frontend:

React.js, JavaScript, HTML5, CSS3, Tailwind CSS

Backend:

Node.js, Express.js

Database:

MongoDB, Mongoose

Tools:

Git, GitHub, Postman, VS Code

PROJECTS

FreshMart – MERN E-Commerce Platform

- Built a full-stack e-commerce application using MongoDB, Express.js, React.js, and Node.js.
- Implemented user authentication, shopping cart, checkout, order management, and admin dashboard.
- Developed RESTful APIs and responsive UI using Tailwind CSS.

Food Ordering Website

- Developed a responsive food ordering web application using React.js, Redux, and Tailwind CSS.

- Implemented product search and add-to-cart functionality.
- Built dynamic cart management with quantity increase/decrease features.
- Utilized Redux for centralized state management and improved user experience.

Expense Tracker

- Developed an expense tracking application using React.js and CSS Modules.
- Implemented add, update, and delete functionality for expense records.
- Calculated and displayed total expenses dynamically using React state management.
- Built a responsive and user-friendly interface.

Education

Bachelor of Science in Software Engineering (BSSE)

Sir Syed University of Engineering & Technology

- Current Semester: 6th Semester
- Current CGPA: 3.07 / 4.00
- Expected Graduation: 2027
